

Open Pores Report

Problem Detected: Open Pores

Visible enlarged pores caused by oil, aging, or skin damage.

Solution

Laser Treatment

Helps tighten enlarged pores and improve overall skin texture.
It supports smoother-looking skin and reduces visible pore size.

Microneedling

Helps improve collagen support and refine uneven skin texture.
It makes pores look less visible and helps the skin look firmer.

Chemical Peel

Helps clear excess oil, dirt, and dead skin from pore openings.
It supports cleaner skin and helps reduce the appearance of open pores.

❏ **Combination treatment may be recommended.**

Stage & What You Should Do

Early Stage

What to do:

Oil control + skincare.

Why this helps:

Prevents pores from enlarging.

Moderate Stage

What to do:

Chemical peel / microneedling.

Why this helps:

Reduces pore visibility.

Advanced Stage

What to do:

Laser treatment.

Why this helps:

Tightens pores and improves texture.
