

Uneven Skin Tone Report

Problem Detected: Uneven Skin Tone

Patchy skin with different shades and irregular texture.

Solution

Laser Treatment

Helps remove surface tan and refresh sun-exposed skin.
It improves skin brightness and restores a cleaner, fresher look.

Chemical Peel

Helps reduce deeper tanning by removing damaged outer skin layers.
It supports a more even tone and brighter skin appearance.

Skin Boosters

Helps target stubborn tanning that does not improve easily.
It supports clearer skin and helps improve overall skin tone.

📌 **Combination treatment may be recommended.**

Stage & What You Should Do

Early Stage

What to do:

Skincare routine + sun protection.

Why this helps:

Prevents uneven tone from worsening.

Moderate Stage

What to do:

Chemical peel treatments.

Why this helps:

Improves skin tone balance.

Advanced Stage

What to do:

Laser + advanced treatments.

Why this helps:

Restores even skin tone.
